

## PUNTA CANA INTERNATIONAL AIRPORT

Built in a 2,000,000 square meters lot, its operations started in 1983 with a 5,000 feet runway and a small terminal that lodged a departure gate and customs area in a small 300 square meter building, with a capacity to assist 150 passengers each hour-and-a-half. By its first year, the Punta Cana International Airport received 2,976 passengers.

Currently, the airport has two terminal buildings: Terminal A with 49,665.78 square meters and Terminal B with 40,724.76 square meters, capable of handling 2,500 passengers each hour-and-a-half making it one of the first and largest, privately owned and operated international airports in the world. Built by Grupo Puntacana, the holding company of Puntacana Resort, the Airport makes Punta Cana one of the most accessible destinations in the Caribbean.

In 2023, the terminal B expansion added 25,000m<sup>2</sup>, enabling the handling of over 2,500 passengers per hour. The extension adds 7 new gates with jet bridges, a VIP lounge offering a poolside runway view, a spacious food court, shops, and service offices. The terminal prioritizes modernity and technology, ensuring a memorable passenger experience.

The airport has a beautifully decorated, modern Control Tower, a primary runway with **10,171.28 ft** and a second one of **10,171.28 ft**. with the capacity to accommodate four E category aircrafts with a 20-year lifetime utility, assuming an increase in a 10% of traffic.

Punta Cana Airport has a 900 square meters hangar capable of accommodating aircrafts such as Gulfstream, King Air, Seneca, Beechcraft and others. It has two aircraft terminals, with a capacity of 30 wide and narrow-body aircrafts simultaneously. Other facilities at the Airport are a parallel taxiing runway, 27 departure gates, 3 customs offices, 14 baggage belts, Arrivals and Departures immigration offices and a growing number of immigration Auto Gates.

VIP Lounges offer an array of amenities, including the first Private Lounge with a runway view pool, over 200 check-in counters, kiosks, crafts, and Duty-Free shops. Cafeterias, pizzerias, bars, restaurants, currency exchange, first-aid services, a loading warehouse, a rent-a-car center, a tour operator area, a parking lot for vehicles and buses, a flight kitchen, aircraft fuel services, and a Fire Station equipped with 6 fire trucks are also available. Five ambulances, employee apartment buildings, modern radio communication, air and Gbas navigation equipment, including the Puntacana Center for Approximation, and primary/secondary weather radar Mode S further enhance security and service to aircraft.

During the high season, PUJ handles more than 500 weekly flights, occasionally exceeding 100 international flights over weekends. According to Central Bank statistics, the airport currently receives 67% of all flights and passengers arriving in the country, solidifying Punta Cana International Airport's status as the leading airport in the Dominican Republic and the fastest-growing in the Caribbean region.

# SERVICES OFFERED

## Security & Immigration

To enter the Dominican Republic, an E-Ticket form and a valid passport with at least two blank pages is required.

## Private Planes

Located on the west side of the international terminal, the Fixed Base Operation Terminal (FBO) at Punta Cana International Airport serves executive general aviation from international and domestic points of departure. Staffed by airport operations personnel, the FBO provides all standard general aviation and executive jet services.

**FBO Terminal:**

Located on the western side of the International Terminal, the FBO caters to executive general aviation traffic arriving from both international and domestic locations. It operates with a dedicated team of airport operations personnel, ensuring the provision of standard general aviation and executive jet services.

**Private Aviation:**

Located on the east side of the International Terminal, the VIP Terminal is a private terminal and aircraft parking apron. Prior permission from airport management is required to use the private VIP terminal

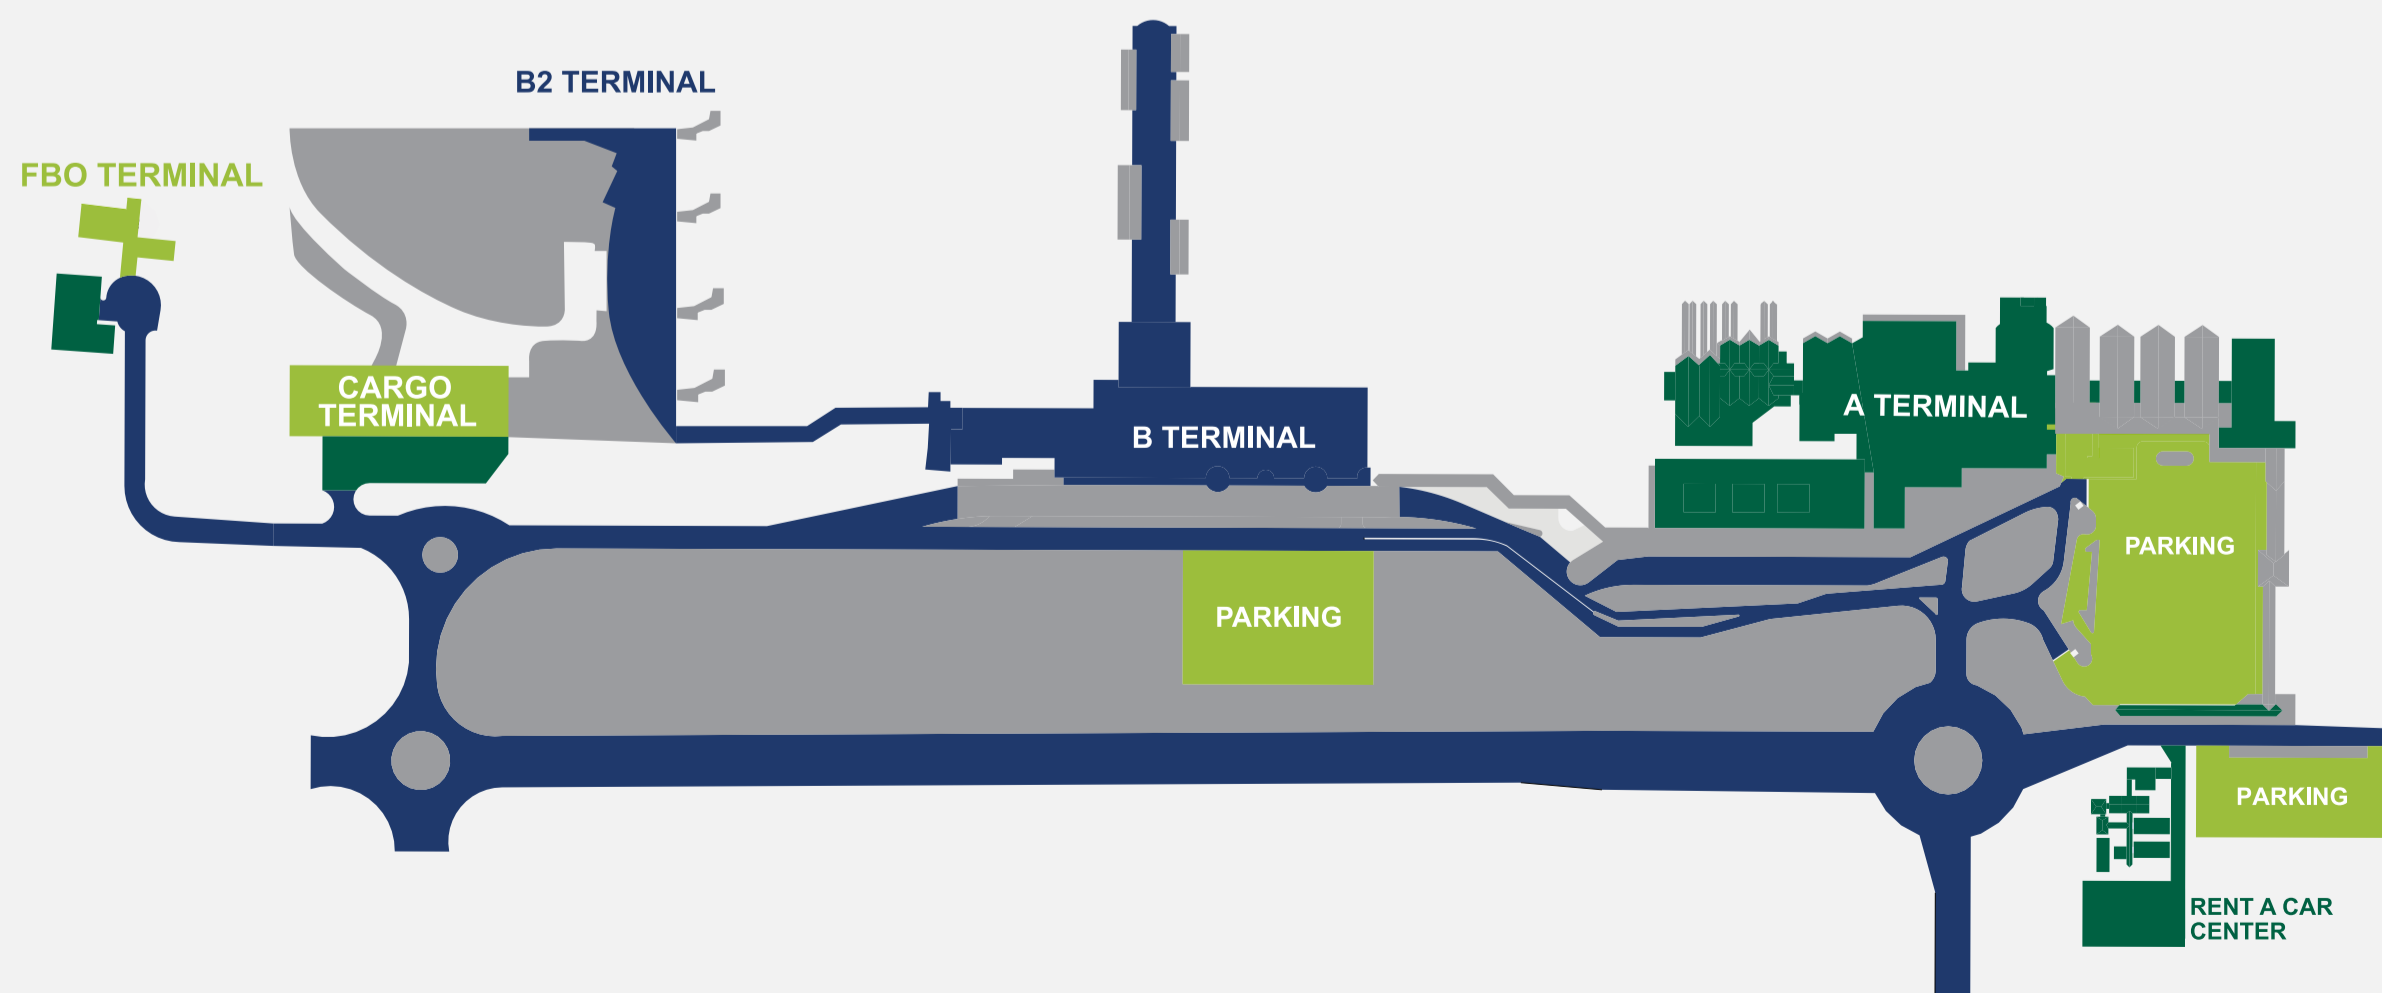

**Commercial Terminals:**

With over 8 million international passengers each year, Punta Cana International Airport is the largest airport in the Caribbean. Across its three terminals, the airport offers a substantial ramp capacity of 21 positions, encompassing a total area of approximately 79,000 M<sup>2</sup>.

**Technical information:**

- 2.7 Square miles area
- 2 Runways
- 34 Boarding Gates - 14 with Jet Bridges
- 37 Parking Stands - 17 with Fuel Hydrants
- 4 Fuel Tanks of JetA1 - Capacity 1M gals.
- 1 Fuel Tank of Avgas - Capacity 15,000 gals.

## B Terminal Expansion Overview

Starting operations in 2023, the terminal expansion added 25,000m<sup>2</sup>, enabling the handling of over 2,500 passengers per hour. The extension adds 7 new gates with jet bridges, a VIP lounge offering a poolside runway view, a spacious food court, shops, and service offices. The terminal prioritizes modernity and technology, ensuring a memorable passenger experience.

Recognized in the Caribbean, Terminal B's security and passenger services include Security e-Gates, 8 additional Body Scanners, 8 tomographic machines, and 4 automated tray return systems, significantly reducing checkpoint wait times. The expansion required an investment of US\$80,000,000."
